Thank You for Being a Part of Our Team
All Crew Members, including the Boat
Crew, are required to wear their
Life Jacket at all times while on the
boat. It is the responsibility of the
Crew to ensure that all Life Jacket
equipment is in good working order
and that all crew members are
properly trained in the use of the
boat.

Story of model of PT252

Skip Anderson (son of Ross E. Anderson Jr., Skipper of PT252) and 1974 Naval Academy graduate) was stationed in Virginia and saw model on cover of RC model magazine. Skip called the creator (in California) and obtained the model (for cash) and had it shipped to Virginia. He built the stand and case for the model. His father had said that PT252 was the most heavily armed PT boat.
